Mission Statement

The Township of Union Board of Education believes that every child is entitled to an education designed to meet his or her individual needs in an environment that is conducive to learning. State standards, federal and state mandates, and local goals and objectives, along with community input, must be reviewed and evaluated on a regular basis to ensure that an atmosphere of learning is both encouraged and implemented. Furthermore, any disruption to or interference with a healthy and safe educational environment must be addressed, corrected, or when necessary, removed in order for the district to maintain the appropriate educational setting.

Philosophy Statement

The Township of Union Public School District, as a societal agency, reflects democratic ideals and concepts through its educational practices. It is the belief of the Board of Education that a primary function of the Township of Union Public School System is to formulate a learning climate conducive to the needs of all students in general, providing therein for individual differences. The school operates as a partner with the home and community.

Statement of District Goals

- Develop reading, writing, speaking, listening, and mathematical skills.
- Develop a pride in work and a feeling of self-worth, self-reliance, and self discipline.
- Acquire and use the skills and habits involved in critical and constructive thinking.
- Develop a code of behavior based on moral and ethical principals.
- Work with others cooperatively.
- Acquire a knowledge and appreciation of the historical record of human achievement and failures and current societal issues.
- Acquire a knowledge and understanding of the physical and biological sciences.
- Participate effectively and efficiently in economic life and the development of skills to enter a specific field of work.
- Appreciate and understand literature, art, music, and other cultural activities.
- Develop an understanding of the historical and cultural heritage.
- Develop a concern for the proper use and/or preservation of natural resources.
- Develop basic skills in sports and other forms of recreation.

Introduction

Health Education is a NJ requirement mandated yearly for every high school student. Our Health Education Curriculum aligns itself with New Jersey Core Curriculum Standards set forth by the New Jersey Department of Education. The Township of Union Public Schools recognizes that health is a state of physical, mental and social well being, not merely the absence of disease. Health education focuses on the art of living, recognizing heredity, environment, values, and personal care as key factors.

Students are empowered with critical information that enables them to make healthy choices using up to date and factual information for both the present and future. The aim of our program is to favorably influence knowledge, attitudes, and practices relating to the individual, family and community. The curriculum is designed to motivate and assist students to maintain and improve their overall health and wellness. This comprehensive curriculum is designed to prepare students for the future beyond their high school years.

Teaching for Diversity

It is critical that all teaching staff provide equity in their educational program. Students must be afforded the opportunity to interact positively with each other regardless of race, creed, color, national origin, ancestry, age, martial status, affection or sexual orientation, gender, religion, disability or socioeconomic status.

Lessons designed must address the following diversity indicators:

- All persons, groups, and cultures will be presented in a fair and objective manner.
- Texts and instructional materials are void of bias and stereotyping.
- Language reflects objectivity and is free of bias and offensive terminology.
- Pictures and illustrations reflect diversity.
- Present information from multiple perspectives if possible.
- Objectives and strategies are inclusive and target the student population to be served.
- Teaching styles are adjusted to meet the learning styles of the students.
- Instruction provides opportunity for cooperation rather than competition.
- Instruction is performance based whenever possible, allowing students the opportunity to demonstrate their learning in a variety of ways.
- Significant opportunities for students to reflect on their learning are provided.

Career Awareness and Consumer, Family, and Life Skills

New Jersey Core Curriculum Content Standard 9.1 and 9.2 state that all students must develop career awareness and planning, employability skills and foundational knowledge necessary for success in the workplace and demonstrate critical life skills in order to be functional members of society. To be most effective, these skills should be integrated throughout all curricula. Lessons shall include career and technical education focusing on career awareness and planning, along with employability skills. In addition, consumer, family, and life skills will focus on critical thinking, self-management, interpersonal communication, character development and education, consumer and personal finance and safety.

Technological Literacy

New Jersey Core Curriculum Content Standard 8.1 mandates that all students use computer applications to gather and organize information. Within all content areas, students should utilize computer and information literacy, which supports competency in information gathering, information organizing and problem solving. These are essential lifelong learning skills.

Technology Vision/Mission Statement

The Township of Union Public School System is committed to utilizing the resources made available by modern technology to enhance and enrich learning opportunities for our students. Our vision is to continue to provide a technologically rich environment by incorporating technology into all aspects of learning, integrating learning theories based on the inclusion and effects that technology has had on daily lives. We envision continually increasing the effectiveness of our technology via our educators and support staff. The Board accepts technological resources as vital tools for learning and working in a modern society, and feels technology should be an integral part of all programs and departments in the school district. Such a commitment shall include, but not necessarily be limited to, continual restructuring of the curriculum to increasingly incorporate technology as an enhancement to learning, further supporting the New Jersey Core Content Curriculum Standards (NJCCCS). We will continue to increase the amount and depth of staff training, to assure all personnel are comfortable and confident with the technology available in the district. We will continually provide LANs and WANs for inter and intra-district communication, controlled access to the Internet offer district email, and maintain an on-line student information data-base to be utilized by both parents and staff.

In addition, New Jersey's membership in the Partnership for Assessment Readiness for College and Careers (PARCC) has given new focus on the technology requirements available to our students. The new K-12 on-line assessments are designed to measure student

readiness for college and careers. Our vision is have both technology and students be prepared for the anticipated 2014-2015 school year administration of the PARCC assessments.

Technological resources are intended to enhance the delivery of instruction. Our technology will support all areas of curriculum, as well as the educational and administrative needs of students, staff, and district personnel. Through the Board of Education's investment, the school community will be empowered to use technology as a tool for learning, a means of expanding access to information, and as a methodology for processing information in more productive and stimulating environment.

Union Township Board of Education Technology Standards

Students shall have the ability to design, develop, publish, and present (presentations, web pages, documents) that demonstrate and communicate curriculum concepts to audiences inside and outside of the classroom. Students shall also have the ability to select and apply technology tools for research, information analysis, problem solving, and decision-making in content learning.

Students at all grade levels, K-12 will...

1. Understand basic technology operation and concepts.
 - 1.1 Demonstrate a sound understanding of the operation of technology systems.
 - 1.2 Develop sufficient skills to successfully use technology tools in daily life, work situations and learning environments.
 - 1.3 Discriminate among a variety of technologies and media to select appropriate technology for specific purposes.
2. Use technology responsibly and ethically.
 - 2.1 Practice responsible use of technology systems, information and software.
 - 2.2 Understand the ethical, cultural, environmental and societal implications of technology and telecommunications.
3. Use technology to communicate effectively and creatively.
 - 3.1 Use a variety of media and formats to communicate information and ideas effectively to multiple audiences.
 - 3.2 Create, produce and present ideas in a variety of forms, including text, video, graphics and conversation.
4. Use technology for thinking, learning and producing.
 - 4.1 Enhance content-area learning with technology-infused lessons.
 - 4.2 Construct new meaning and knowledge by combining and synthesizing different types of information.
 - 4.3 Use computer modeling, image processing, and simulations and data manipulation to develop understanding.
 - 4.4 Use a variety of tools to produce quality products.

5. Use technology for research, problem solving and decision-making.
- 5.1 Use technology to locate, evaluate, collect and organize information from a variety of sources.
- 5.2 Review information analytically and transform it into useful knowledge to solve problems.
- 5.3 Work with a group to collaboratively solve a problem.

UNION TOWNSHIP MIDDLE SCHOOLS
HEALTH EDUCATION CURRICULUM OUTLINE
(Based on the New Jersey Core Curriculum Content Standards)

HEALTH EDUCATION
GRADE 7

Unit #1 Wellness (uses Chapters 1,2, 4,5, 6,7, 8, 11 in book)

- Personal fitness
- Nutrition
- Physical Growth and Development
- Personal Mental Health
- Social Health

Unit #2 Alcohol, Tobacco, Other Drugs (uses Chapter 9, 10 in book)

- Drugs

Unit #3 Family Life (Uses Chapter 3 in book)

- Sexually Transmitted Diseases

Unit #4 Community Health Skills (Uses Chapter 3, 12 in book)

- Safety
- First Aid

**Health Education Grade 7
Township of Union Public Schools
June 2016**

Health Education Grade Course 7 Description:

The curriculum will help the students to develop positive healthy attitudes, respect for themselves and others and an appreciation for life.

We hope to supplement and expand the positive attitudes already taught in the home. The goal is to establish a consistent foundation on which the students can make responsible decisions on the future.

This curriculum will help the students develop knowledge of family life and the importance of being a teenager. The responsibilities and confrontations associated with this age group will also be developed. The goal is for the student to make responsible decisions based on information received.

The students will develop a vocabulary that is used properly with correct terminology. The students will learn that they are responsible for their own behavior and actions. Possible outcomes for behavior will also be discussed.

Recommended Texts:

Bronson, M, Cleary, M, & Hubbard, B. (2009). *Glencoe Teen Health*. Woodland Hills, CA: McGraw Hill.

Grade Course Proficiencies

Students will be able to...

- Compliment and supplement the knowledge already learned at home.
- Further develop information on health and family life.
- Develop an understanding of varied family, cultural and ethnic variations or differences.
- Develop an awareness of tobacco, alcohol, steroids and of drug related problems as well as related illnesses
- Learn skills necessary to prevent accidents and injury and how to handle emergency situations.
- Learn Skills to establish and maintain a positive self-image.
- Develop an understanding how proper nutrition and exercise can impact their physical fitness.
- Understand various conflict resolutions techniques to help solve problems.
- Understand the procedures of basic Safety and First Aid.
- Make improvements in their nutrition choices when they apply their knowledge.
- Develop an understanding of sexually transmitted diseases as well as HIV/AIDS.
- Develop the knowledge for proper conflict resolution.
- Develop an understanding of human growth & development.

Content: Personal Mental Health

Text: Glencoe Teen Health Course 3

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
What is self-esteem?	2.1.6.E.1	Examine how personal assets and protective factors support healthy social and emotional development	Have students write a fictional story about a teen who has to adjust to a new situation.	10 Days	Written examination
Current event What are traits of good mental and emotional health?			“I am special” Review positive characteristics traits and positive personality traits. Students create personalized poems about themselves to increase self-esteem. They will create the “I am special poem” and paste it to a heart (made from paper). They may add a picture or any items to personalize their heart.		Rubric grading sheet
What causes stress?			Have students create a booklet describing positive ways to manage stress.		
What are three ways that your body responds to stress?	2.1.6.E.2	Make recommendations to resolve incidences of school and community conflict, violence, harassment, gang violence, discrimination, and bullying.			
What is suicide?			Signs of suicide worksheet (Chapter 4 Activity)		

Content: Social Health

Text: Glencoe Teen Health Course 3

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
What is a role?	2.1.6.E.1	Examine how personal assets and protective factors support healthy social and emotional development.	Have students work in small groups to write, rehearse, and perform puppet shows. Each show must apply importance of responsibilities within families	5 Days	Written exam Current event article
Which character traits are found in strong , healthy relationships	2.4.6.A.2	Analyze the characteristics of healthy friendships and other relationships.	Getting along with your family Worksheet. Chapter 6 Activity		Puppet show (Rubric grading)
Name two Physical needs that a family provides.					
What is a blended family?	2.4.6.A.1	Compare and contrast how families may change over time.			
What can a teen do to cope with family changes ?			Have students work in pairs to find information about community resources for students who are dealing with family changes.		

Content: Physical Growth and Development**Text: Glencoe Teen Health Course 3**

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
What is fertilization?	2.4.6.C.2	Identify the signs and symptoms of pregnancy.	Have students create a crossword puzzle that incorporates terms associated with fertilization. Including egg cell, sperm cell, uterus, embryo and fetus.	5 Days	Written examination
Where does fertilization occur?	2.4.6.C.2				Current event article
What structure carries food and oxygen from the mother's body to her developing fetus?	2.4.6.C.1	Summarize the sequence of fertilization embryonic growth and fetal development during pregnancy.	Have students work in pairs. Provide each pair of students With a long piece of paper, ask each pair to make a time line that describes the nine months of development before birth.		Rubric grading sheet
What is prenatal care?	2.4.6.C.3	Identify prenatal practices that support a healthy pregnancy.			
Who provides prenatal care?	2.4.6 C3				

Content: Nutrition and Personal Fitness

Text: Glencoe Teen Health Course 3

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
What is Appetite?					
What do nutrients do for your body?	2.1.6.B.3	Create a daily balanced nutritional meal plan based on nutritional content, value, calories, and cost.	“Time to shop” using a flyer from a local grocery store. Students will create a meal either breakfast, lunch, or dinner which must include all components of the food pyramid. Their budget is \$10.00	10 Days	Written exam Current event article
Name six major classes of nutrients.					Rubric grading sheet
What is the purpose of my pyramid food guidance system?	2.1.6.B.1	Determine factors that influence food choices and eating patterns.			
Why is a healthy body image important?			Identifying the benefits of exercise, students will pick one benefit to promote and create an advertisement for exercise and or/ fitness.		“Fitness Advertisements”
Name the four measures of fitness.					
What is physical activity?					
What is excretion?			Have students draw the path of food as it moves through the digestive system. Copy a picture from Chapter 16/Lesson 6 and make a copy (take away labeled words) have students re-label the path. Name three organs of the digestive system.		

Content: Drugs**Text: Glencoe Teen Health Course 3**

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
Name two side effects that that can occur when taking medicine.	2.3.6.A.1	Compare and contrast short and long term effects and the potential for abuse of commonly used over-the counter and prescription medicines and herbal and medicinal supplements. and long-term effects and the potential for abuse of commonly used over-the counter and prescription medicines and herbal and medicinal supplements.	Say No to Drugs: Refusal skills worksheet	10 Days	Written Examination Current Event
What is the difference between drug misuse and drug abuse?			Have students work in pairs to identify the drugs listed and their effects.		Rubric grading sheet
What are two long-term effects of marijuana use ?	2.3.6.B.1	Explain the system of drug classification and why it is useful in preventing substance abuse.			
What are narcotics, stimulants, and depressants?					
Name two commonly abused narcotics.					
What is a hallucinogen?					
What is nicotine?	2.3.6.B.2	Relate tobacco use and the incidence of disease.	Have students make a poster with illustrations and captions that show the costs of tobacco.		
Identify and describe the risks associated with three harmful substances found in all forms of tobacco.					
Name ways of avoiding pressure to try tobacco.	2.3.6.B.5	Determine situations where the use of alcohol & other drugs influence decision making & can place one at risk.	Using tobacco ads from magazines students choose an ad and draw his or her version of the ad, using facts about the dangers of smoking.		
What is negative peer pressure?					

Content: Sexually Transmitted diseases

Text: Glencoe Teen Health Course 3

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
What is communicable disease?	2.1.6.C.1	Summarize means of detecting and treating diseases and health conditions that are prevalent in adolescents.		5 Days	Written examination
What are four types of pathogens?			Pathogens Worksheet (Chapter 18 Activity)		Current event article
What is antigen?					
Name two types of white blood cells your immune system produces to fight antigens.					Rubric grading sheet
What are two examples of how someone might become infected with Hepatitis A?	2.4.6.B.3	Determine behaviors that place one at risk for HIV/AIDS, STD's, HPV or unintended pregnancy.	The ABC's of Communicable Diseases Worksheet (Chapter 18 Activity)		
What is a sexually transmitted disease?					
What are examples of STD's that is considered "silent diseases"?					
What is HIV? How does HIV weaken the body's immune system?			"AIDS Quilt" Students gather facts and identify myths associated with the transmission of HIV/AIDS. Each student should be given a piece of construction paper Or felt. Students are to draw/write a message to "clear up" a Myth associated with the transmission of HIV/AIDS. Once all are complete you can attach each one and form a fact quilt.		

Content: Safety and First Aid

Text: Glencoe Teen Health Course 3

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
What is an accident?	2.1.6.D.1	Summarize the common causes of intentional and unintentional injuries in adolescents and related prevention strategies.	Have students write a paragraph that describes a fictional accident such as a fall. Make sure students describe each step in the accident chain.	10 Days	Written exam Current event article
What is first aid?					
Name four universal precautions to take when administering first aid.	2.1.6.D.4	Assess when to use basic first-aid procedures.	First aid booklet Students will create their own first aid booklet.		Rubric grading sheet
What are different types of common emergencies?					
What are four safety rules that can reduce your risk of traffic injuries?	2.1.6.D.3	Summarize the components of the traffic safety system and explain how people contribute to making the system effective.	First Aid Kits Have students brainstorm and discuss the items that make up a first aid kit. Give each student a piece of paper. On the front of the paper draw first aid items and on back explain each item. Use at least 10 items.		

Content Area

Content Area		Comprehensive Health and Physical Education	
Standard		2.1 Wellness: All students will acquire health promotion concepts and skills to support a healthy, active lifestyle.	
Strand		A. Personal Growth and Development	
By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
P	Developing self-help skills and personal hygiene skills promotes healthy habits.	2.1.P.A.1	Develop an awareness of healthy habits (e.g., use clean tissues, wash hands, handle food hygienically, brush teeth, and dress appropriately for the weather).
		2.1.P.A.2	Demonstrate emerging self-help skills (e.g., develop independence when pouring, serving, and using utensils and when dressing and brushing teeth).
2	Health-enhancing behaviors contribute to wellness.	2.1.2.A.1	Explain what being “well” means and identify self-care practices that support wellness.
		2.1.2.A.2	Use correct terminology to identify body parts, and explain how body parts work together to support wellness.
4	The dimensions of wellness are interrelated and impact overall personal well-being.	2.1.4.A.1	Explain the physical, social, emotional, and mental dimensions of personal wellness and how they interact.
		2.1.4.A.2	Determine the relationship of personal health practices and behaviors on an individual’s body systems.
6	Staying healthy is a lifelong process that includes all dimensions of wellness.	2.1.6.A.1	Explain how health data can be used to assess and improve each dimension of personal wellness.
		2.1.6.A.2	Relate how personal lifestyle habits, environment, and heredity influence growth and development in each life stage.
		2.1.6.A.3	Determine factors that influence the purchase of healthcare products and use of personal hygiene practices.
8	Developing and maintaining wellness requires ongoing evaluation of factors impacting health and modifying lifestyle behaviors accordingly.	2.1.8.A.1	Assess and apply health data to enhance each dimension of personal wellness.
		2.1.8.A.2	Compare and contrast the impact of genetics, family history, personal health practices, and environment on personal growth and development in each life stage.
		2.1.8.A.3	Relate advances in technology to maintaining and improving personal health.
		2.1.8.A.4	Determine the impact of marketing techniques on the use of personal hygiene products, practices, and services.
12	Developing and maintaining wellness requires ongoing evaluation of factors impacting health and modifying	2.1.12.A.1	Analyze the role of personal responsibility in maintaining and enhancing personal, family, community, and global wellness.

	lifestyle behaviors accordingly.	2.1.12.A.2	Debate the social and ethical implications of the availability and use of technology and medical advances to support wellness.
Content Area	Comprehensive Health and Physical Education		
Standard	2.1 Wellness: All students will acquire health promotion concepts and skills to support a healthy, active lifestyle.		
Strand	B. Nutrition		
By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
P	Developing the knowledge and skills necessary to make nutritious food choices promotes healthy habits.	2.1.P.B.1	Explore foods and food groups (e.g., compare and contrast foods representative of various cultures by taste, color, texture, smell, and shape).
		2.1.P.B.2	Develop awareness of nutritious food choices (e.g., participate in classroom cooking activities, hold conversations with knowledgeable adults about daily nutritious meal and snack offerings).
2	Choosing a balanced variety of nutritious foods contributes to wellness.	2.1.2.B.1	Explain why some foods are healthier to eat than others.
		2.1.2.B.2	Explain how foods in the food pyramid differ in nutritional content and value.
		2.1.2.B.3	Summarize information about food found on product labels.
4	Choosing a balanced variety of nutritious foods contributes to wellness.	2.1.4.B.1	Explain how healthy eating provides energy, helps to maintain healthy weight, lowers risk of disease, and keep body systems functioning effectively.
		2.1.4.B.2	Differentiate between healthy and unhealthy eating practices.
		2.1.4.B.3	Create a healthy meal based on nutritional content, value, calories, and cost.
		2.1.4.B.4	Interpret food product labels based on nutritional content.
6	Eating patterns are influenced by a variety of factors.	2.1.6.B.1	Determine factors that influence food choices and eating patterns.
		2.1.6.B.2	Summarize the benefits and risks associated with nutritional choices, based on eating patterns.
		2.1.6.B.3	Create a daily balanced nutritional meal plan based on nutritional content, value, calories, and cost.
		2.1.6.B.4	Compare and contrast nutritional information on similar food products in order to make informed choices.
8	Eating patterns are influenced by a variety of factors.	2.1.8.B.1	Analyze how culture, health status, age, and eating environment influence personal eating patterns and recommend ways to provide nutritional balance.
		2.1.8.B.2	Identify and defend healthy ways for adolescents to lose, gain, or maintain weight.
		2.1.8.B.3	Design a weekly nutritional plan for families with different lifestyles, resources, special needs, and cultural backgrounds.
		2.1.8.B.4	Analyze the nutritional values of new products and supplements.

12	Applying basic nutritional and fitness concepts to lifestyle behaviors impacts wellness.	2.1.12.B.1	Determine the relationship of nutrition and physical activity to weight loss, weight gain, and weight maintenance.
		2.1.12.B.2	Compare and contrast the dietary trends and eating habits of adolescents and young adults in the United States and other countries.
		2.1.12.B.3	Analyze the unique contributions of each nutrient class (fats, carbohydrates, protein, water, vitamins, and minerals) to one's health.

	2.1.6.D.4	Applying first-aid procedures can minimize injury and save lives.	

By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
8	Evaluating the potential for injury prior to engaging in unhealthy/risky behaviors impacts choices.	2.1.8.D.1	Assess the degree of risk in a variety of situations and identify strategies to reduce intentional and unintentional injuries to self and others.
		2.1.8.D.2	Describe effective personal protection strategies used in public places and what to do when one's safety is compromised.
		2.1.8.D.3	Analyze the causes and the consequences of noncompliance with the traffic safety system .
	Applying first-aid procedures can minimize injury and save lives.	2.1.8.D.4	Demonstrate first-aid procedures, including victim and situation assessment, Basic Life Support, and the care of head trauma, bleeding and wounds, burns, fractures, shock, and poisoning.
12	Evaluating the potential for injury prior to engaging in unhealthy/risky behaviors impacts choices.	2.1.12.D.1	Determine the causes and outcomes of intentional and unintentional injuries in adolescents and young adults and propose prevention strategies.
		2.1.12.D.2	Explain ways to protect against abuse and all forms of assault and what to do if assaulted.
		2.1.12.D.3	Analyze the relationship between alcohol and drug use and the incidence of motor vehicle crashes.
		2.1.12.D.4	Develop a rationale to persuade peers to comply with traffic safety laws and avoid driving distracters.
		2.1.12.D.5	Summarize New Jersey motor vehicle laws and regulations and determine their impact on health and safety (e.g., organ/tissue donation, seatbelt use, and the use of hand-held devices).
	Applying first-aid procedures can minimize injury and save lives.	2.1.12.D.6	Demonstrate first-aid procedures, including Basic Life Support and automatic external defibrillation, caring for head trauma, bone and joint emergencies, caring for cold and heat injuries, and responding to medical emergencies.

2	Gender-specific similarities and differences exist between males and females.	2.4.2.B.1	Compare and contrast the physical differences and similarities of the genders.	
4	Puberty is the period of sexual development, determined primarily by heredity, in which the body becomes physically able to produce children.	2.4.4.B.1	Differentiate the physical, social, and emotional changes occurring at puberty and explain why puberty begins and ends at different ages.	
6	Most significant physical, emotional, and mental growth changes occur during adolescence, but not necessarily at the same rates. Responsible actions regarding sexual behavior impact the health of oneself and others.	2.4.6.B.1	Compare growth patterns of males and females during adolescence.	
		2.4.6.B.2	Summarize strategies to remain abstinent and resist pressures to become sexually active.	
		2.4.6.B.3	Determine behaviors that place one at risk for HIV/AIDS, Sties , HPV , or unintended pregnancy.	
		2.4.6.B.4	Predict the possible physical, social, and emotional impacts of adolescent decisions regarding sexual behavior.	
8	Personal lifestyle habits and genetics influence sexual development as well as overall growth patterns. Responsible actions regarding sexual behavior impact the health of oneself and others.	2.4.8.B.1	Analyze the influence of hormones, nutrition, the environment, and heredity on the physical, social, and emotional changes that occur during puberty.	
		2.4.8.B.2	Determine the benefits of sexual abstinence and develop strategies to resist pressures to become sexually active.	
		2.4.8.B.3	Compare and contrast methods of contraception used by adolescents and factors that may influence their use.	
		2.4.8.B.4	Relate certain behaviors to placing one at greater risk for HIV/AIDS, Sties , and unintended pregnancy.	
	2.4.8.B.5	Discuss topics regarding gender identity, sexual orientation, and cultural stereotyping.		
	2.4.8.B.6	Explain the importance of practicing routine healthcare procedures such as breast self-examination, testicular examinations, and HPV vaccine.		
12	The decision to become sexually active affects one's physical, social, and emotional health. Responsible actions regarding sexual behavior impact the health of oneself and others.	2.4.12.B.1	Predict the possible long-term effects of adolescent sex on future education, on career plans, and on the various dimensions of wellness.	
		2.4.12.B.2	Evaluate information that supports abstinence from sexual activity using reliable research data.	
		2.4.12.B.3	Analyze factors that influence the choice, use, and effectiveness of contraception, including risk-reduction and risk-elimination strategies.	

By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
	Discussion of topics regarding sexuality requires a safe, supportive environment where sensitivity and respect is shown toward all.	2.4.12.B.4	Compare and contrast attitudes and beliefs about gender identity, sexual orientation, and gender equity across cultures.
	Early detection strategies and regular physical exams assist in the prevention and treatment of illness or disease.	2.4.12.B.5	Relate preventative healthcare strategies of male/female reproductive systems to the prevention and treatment of disease (e.g., breast/testicular exams, Pap smear, HPV vaccine).

Content Area		Comprehensive Health and Physical Education		
Standard		2.4 Human Relationships and Sexuality: All students will acquire knowledge about the physical, emotional, and social aspects of human relationships and sexuality and apply these concepts to support a healthy, active lifestyle.		
Strand		C. Pregnancy and Parenting		
By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)	
2	The health of the birth mother impacts the development of the fetus.	2.4.2.C.1	Explain the factors that contribute to a mother having a healthy baby.	
4	Knowing the physiological process of how pregnancy occurs as well as development of the fetus leading to childbirth contribute to a greater understanding of how and why a healthy environment should be provided for the pregnant mother.	2.4.4.C.1	Explain the process of fertilization and how cells divide to create an embryo/fetus that grows and develops during pregnancy.	
	The health of the birth mother impacts the development of the fetus.	2.4.4.C.2	Relate the health of the birth mother to the development of a healthy fetus.	
6	Knowing the physiological process of how pregnancy occurs as well as development of the fetus leading to child birth contribute to a greater understanding of how and why a healthy environment should be provided for the pregnant mother.	2.4.6.C.1	Summarize the sequence of fertilization, embryonic growth, and fetal development during pregnancy.	
		2.4.6.C.2	Identify the signs and symptoms of pregnancy.	
		2.4.6.C.3	Identify prenatal practices that support a healthy pregnancy.	
	2.4.6.C.4	Predict challenges that may be faced by adolescent parents and their families.		
8	Pregnancy, childbirth, and parenthood are significant events that cause numerous changes in one's life and the lives of others.	2.4.8.C.1	Summarize the signs and symptoms of pregnancy and the methods available to confirm pregnancy.	
		2.4.8.C.2	Distinguish physical, social, and emotional changes that occur during each stage of pregnancy, including the stages of labor and childbirth and the adjustment period following birth.	
		2.4.8.C.3	Determine effective strategies and resources to assist with parenting.	
		2.4.8.C.4	Predict short- and long-term impacts of teen pregnancy.	
		2.4.8.C.5	Correlate prenatal care with the prevention of complications that may occur during pregnancy and childbirth.	
12	Pregnancy, childbirth, and parenthood are significant events that cause numerous changes in one's life and the lives of others.	2.4.12.C.1	Compare embryonic growth and fetal development in single and multiple pregnancies, including the incidence of complications and infant mortality.	
		2.4.12.C.2	Analyze the relationship of an individual's lifestyle choices during pregnancy and the incidence of fetal alcohol syndrome, sudden infant death syndrome, low birth weight, premature birth, and other disabilities.	
		2.4.12.C.3	Evaluate the methods and resources available to confirm pregnancy.	

By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
		2.4.12.C.4	Determine the impact of physical, social, emotional, cultural, religious, ethical, and legal issues on elective pregnancy termination.
		2.4.12.C.5	Evaluate parenting strategies used at various stages of child development based on valid sources of information.
		2.4.12.C.6	Compare the legal rights and responsibilities of adolescents with those of adults regarding pregnancy, abortion, and parenting.
		2.4.12.C.7	Analyze factors that affect the decision to become a parent.

UNION TOWNSHIP MIDDLE SCHOOLS
HEALTH EDUCATION CURRICULUM OUTLINE
(Based on the New Jersey Core Curriculum Content Standards)

HEALTH EDUCATION
GRADE 8

Unit #1 Wellness (uses Chapters 1,2, 4,5, 6,7, 8, 11 in book)

- Adolescent Growth and Development
- Body Systems
- Nutrition

Unit #2 Alcohol, Tobacco, Other Drugs (uses Chapter 9, 10 in book)

- Alcohol
- Drugs
- Tobacco

Unit #3 Family Life (Uses Chapter 3 in book)

- Building Healthy Relationships
- Life skills training
- Sexually transmitted diseases

Unit #4 Community Health Skills (Uses Chapter 3, 12 in book)

- Conflict Resolution
- HIV/AIDS
- Infectious and non-infectious diseases
- Safety and first aid

**Health Education Grade 8
Township of Union Public Schools
June 2016**

Health Education Grade 8 Course Descriptions:

The curriculum will help the students to develop positive healthy attitudes, respect for themselves and others and an appreciation for life.

We hope to supplement and expand the positive attitudes already taught in the home. The goal is to establish a consistent foundation on which the students can make responsible decisions on the future.

This curriculum will help the students develop knowledge of family life and the importance of being a teenager. The responsibilities and confrontations associated with this age group will also be developed. The goal is for the student to make responsible decisions based on information received.

The students will develop a vocabulary that is used properly with correct terminology. The students will learn that they are responsible for their own behavior and actions. Possible outcomes for behavior will also be discussed.

Recommended Texts:

Bronson, M, Cleary, M, & Hubbard, B. (2009). *Glencoe teen health*. Woodland Hills, CA: McGraw Hill.

Grade 8 Course Proficiencies

Students will be able to...

- Compliment and supplement the knowledge already learned at home.
- Further develop information on family life.
- Assume responsibility for their own actions based on knowledge gained.
- Develop an understanding of varied family living, including cultural and ethnical variation.
- Develop an awareness of drug related risks as well as alcohol and tobacco related problems and illnesses.
- Develop an understanding of human growth and development including puberty and the reproductive system.
- Develop an understanding of sexually transmitted diseases as well as HIV/AIDS and Hepatitis B.
- Recognize abstinence as a safe and responsible adolescent choice for behavior.
- Develop steps necessary to make healthy decisions.
- Identify skills for healthy communication.
- Develop the knowledge for proper conflict resolution.
- Develop an understanding of basic Safety and First Aid procedures done in various situations.
- Determine drug related knowledge
- Demonstrate their ability to apply the decision making process in the prevention of drug/alcohol and tobacco use.
- Develop an understanding of puberty and the importance of abstinence.
- Understand why the changes are developing in their bodies at this time.
- Understand the topics presented on love, infatuation, dating, and responsible sexual behavior.
- Develop an understanding of HIV/AIDS and develop compassion for the victims.
- Understand various conflict resolutions techniques to help solve problems.
- Understand what behaviors constitute a healthy dating relationship.
- Understand the danger signs of an unhealthy relationship.
- Understand the procedures of basic Safety and First Aid.
- Make improvements in their nutrition choices when they apply their knowledge.

Content: Adolescent Growth and Development
Text: Glencoe Teen Health Course 3

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
<p>What is Puberty?</p> <p>What are the four main stages of childhood?</p> <p>List three physical changes that females experience during puberty, and three that males experience?</p> <p>Why is it important for adults to support and encourage children?</p> <p>What is prenatal care?</p> <p>What are two substances that could harm a fetus if its mother uses them while she is pregnant?</p> <p>What is abstinence and what are the benefits of practicing abstinence?</p>	<p>2.4.8.B.1</p> <p>2.4.8.B.2</p> <p>2.4.8.B.3</p> <p>2.4.8.B.5</p> <p>2.4.8.B.6</p>	<p>Analyze the influence of hormones, nutrition, the environment, and heredity on the physical, social, and emotional changes that occur during puberty.</p> <p>Determine the benefits of sexual abstinence and develop strategies to resist pressures to become sexually active.</p> <p>Compare and contrast methods of contraception used by adolescents and factors that may influence their use.</p> <p>Discuss topics regarding gender identity, sexual orientation, and cultural stereotyping.</p> <p>Explain the importance of practicing routine healthcare procedures such as breast self-examination, testicular examinations, and the HPV vaccine.</p>	<p>Question Box – students anonymously ask questions without embarrassment.</p> <p>Research teen magazines and websites, in what ways do they try to influence teens? Report out to class.</p> <p>Goal setting worksheet – chooses a goal and graph how to achieve that goal.</p> <p>Love and Infatuation worksheet</p> <p>Promoting a Healthy Sexual Identity worksheet.</p> <p>Create a list of physical and emotional changes during pregnancy.</p>	<p>10 days</p>	<p>Written examination</p> <p>Rubric grading sheet</p> <p>Current event article</p>

Content: Building Healthy Relationships					
Text: Glencoe Teen Health Course 3					
Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
What is a role when speaking in terms of relationships?	2.4.8.A.1	Predict how changes within a family can impact family members.	Who are you? Worksheet Who are you? Oral presentation	10 days	Written examination Oral presentation
What are some needs that relationships meet?	2.4.8.A.2	Explain how the family unit impacts character development.	Design your family tree project. Identify changes in relationships with parents, grand parents, siblings, etc.		Current event article
Which character traits are found in strong, healthy relationships?	2.4.8.A.3	Explain when the services of professionals are needed to intervene in relationships.	Improving communication with parents worksheet		Role Play
What is a blended family?	2.4.8.A.4	Differentiate between affection, love, commitment, and sexual attraction.	Role play scenarios designated by the teacher.		
Name two physical needs that a family provides?	2.4.8.A.5	Determine when a relationship is unhealthy and explain effective strategies to end the relationship.	Present article on healthy relationship styles.		
What can a teen do to cope with family changes?	2.4.8.A.6	Develop acceptable criteria for safe dating situations, such as dating in groups, setting limits, or only dating someone of the same age.			

Content: Alcohol, Drugs, Tobacco

Text: Glencoe Teen Health Course 3

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
What are three reasons not to drink alcohol?	2.3.4.B.1	Explain why it is illegal to use or possess certain drugs/substances and the possible consequences.	Reading Strategy. Finding the main ideas relating to alcohol abuse.	5 days	Written examination Poster presentation Current event article
What are two reasons teens use for using alcohol?	2.3.4.B.2	Compare the short- and long-term physical effects of all types of tobacco use.	Create a TV ad that encourages teens not to drink. Role play with group members.		
What are some alternatives to drugs, alcohol, and tobacco?	2.3.4.B.3	Identify specific environments where second-hand/passive smoke may impact the wellness of nonsmokers.	Make a poster encouraging teens not to smoke. “Up In Smoke” worksheet.		
What is withdrawal?	2.3.4.B.4	Summarize the short- and long-term physical and behavioral effects of alcohol use and abuse.	Create pamphlet to educate other about dangers of drugs.		
What are the steps in the recovery process of addiction?	2.3.4.B.5	Identify the short- and long- term physical effects of inhaling certain substances.	Write a script for a public service announcement explaining long and short term effects of marijuana.		
What is nicotine?					

Content: Communication, Conflict Resolution

Text: Glencoe Teen Health Course 3

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
What are some factors that contribute to bullying? Who can victims of bullying turn to for help?	2.2.8.A.1	Compare and contrast verbal and nonverbal interpersonal communication strategies in a variety of settings and cultures in different situations.	Role Play teacher directed scenarios.	5 days	Written examination
What steps would you take to talk out a problem?	2.2.8.A.2	Demonstrate the use of refusal, negotiation, and assertiveness skills when responding to peer pressure, disagreements, or conflicts.	Evaluate song lyrics that promote negative behaviors. Write a review on how that can be changed to a positive.		Role Play
What are two communication strategies?			Worksheet – strengths and weaknesses for preventing conflicts from growing. Guesstures - Game		

Content: Infectious & Non-Infectious Diseases, HIV/AIDS

Text: Glencoe Teen Health Course 3

Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
Define infection. What is a communicable and non communicable disease? What are four types of pathogens? What are three examples of STDs that are considered “silent diseases”? Define HIV and carrier. How does HIV weaken the immune system?	2.1.8.C.1 2.1.8.C.2 2.4.8.B.4	Evaluate emerging methods to diagnose and treat diseases and health conditions that are common in young adults in the United States and other countries, including hepatitis, sexually transmitted infections, HIV/AIDS, breast cancer, HPV, and testicular cancer. Analyze local, state, national, and international public health efforts to prevent and control diseases and health conditions. Relate certain behaviors to placing one at greater risk for HIV/AIDS and unintended pregnancy.	Create a chart of behaviors that can lead to the spread of pathogens over a week, describe results and solutions. Use decision making process for healthy decisions based on teacher directed scenarios. Create a booklet that tells teens about the dangers of STDs. Develop a plan on how to avoid contracting HIV. Specifically write steps to reach your goal. Create poster advocating abstinence and the diseases that can be avoided.	10 days	Written examination Poster presentation Current event article

Content: Nutrition					
Text: Glencoe Teen Health Course 3					
Essential Questions	CPI #	CPI	Suggested Activity	Pacing	Assessment
What do nutrients do for your body?	2.1.8.B.1	Analyze how culture, health status, age, and eating environment influence personal eating patterns and recommend ways to provide nutritional balance.	Develop food guide pyramid of your diet. Research a country that has famine problems, describe steps being taken to correct.	5 days	Written examination Current event article Oral Presentation
What role do emotions play in your food choices?					
How is it possible to have plenty of food and yet be poorly nourished?	2.1.8.B.2	Identify and defend healthy ways for adolescents to lose, gain, or maintain weight.	Poster on nutritional deficiencies effects on the human body.		
What are the six major classes of nutrients?	2.1.8.B.3	Design a weekly nutritional plan for families with different lifestyles, resources, special needs, and cultural backgrounds.	Find an ad for a food or food product. What methods are used to encourage you to buy that food?		
What makes a food an empty calorie food?	2.1.8.B.4	Analyze the nutritional values of new products and supplements.	Present your “ideal diet” plan.		

Content Area		Comprehensive Health and Physical Education	
Standard		2.1 Wellness: All students will acquire health promotion concepts and skills to support a healthy, active lifestyle.	
Strand		A. Personal Growth and Development	
By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
P	Developing self-help skills and personal hygiene skills promotes healthy habits.	2.1.P.A.1	Develop an awareness of healthy habits (e.g., use clean tissues, wash hands, handle food hygienically, brush teeth, and dress appropriately for the weather).
		2.1.P.A.2	Demonstrate emerging self-help skills (e.g., develop independence when pouring, serving, and using utensils and when dressing and brushing teeth).
2	Health-enhancing behaviors contribute to wellness.	2.1.2.A.1	Explain what being “well” means and identify self-care practices that support wellness.
		2.1.2.A.2	Use correct terminology to identify body parts, and explain how body parts work together to support wellness.
4	The dimensions of wellness are interrelated and impact overall personal well-being.	2.1.4.A.1	Explain the physical, social, emotional, and mental dimensions of personal wellness and how they interact.
		2.1.4.A.2	Determine the relationship of personal health practices and behaviors on an individual’s body systems.
6	Staying healthy is a lifelong process that includes all dimensions of wellness.	2.1.6.A.1	Explain how health data can be used to assess and improve each dimension of personal wellness.
		2.1.6.A.2	Relate how personal lifestyle habits, environment, and heredity influence growth and development in each life stage.
		2.1.6.A.3	Determine factors that influence the purchase of healthcare products and use of personal hygiene practices.
8	Developing and maintaining wellness requires ongoing evaluation of factors impacting health and modifying lifestyle behaviors accordingly.	2.1.8.A.1	Assess and apply health data to enhance each dimension of personal wellness.
		2.1.8.A.2	Compare and contrast the impact of genetics, family history, personal health practices, and environment on personal growth and development in each life stage.
		2.1.8.A.3	Relate advances in technology to maintaining and improving personal health.
		2.1.8.A.4	Determine the impact of marketing techniques on the use of personal hygiene products, practices, and services.
12	Developing and maintaining wellness requires ongoing evaluation of factors impacting health and modifying lifestyle behaviors accordingly.	2.1.12.A.1	Analyze the role of personal responsibility in maintaining and enhancing personal, family, community, and global wellness.
		2.1.12.A.2	Debate the social and ethical implications of the availability and use of technology and medical advances to support wellness.

Content Area		Comprehensive Health and Physical Education	
Standard		2.1 Wellness: All students will acquire health promotion concepts and skills to support a healthy, active lifestyle.	
Strand		B. Nutrition	
By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
P	Developing the knowledge and skills necessary to make nutritious food choices promotes healthy habits.	2.1.P.B.1	Explore foods and food groups (e.g., compare and contrast foods representative of various cultures by taste, color, texture, smell, and shape).
		2.1.P.B.2	Develop awareness of nutritious food choices (e.g., participate in classroom cooking activities, hold conversations with knowledgeable adults about daily nutritious meal and snack offerings).
2	Choosing a balanced variety of nutritious foods contributes to wellness.	2.1.2.B.1	Explain why some foods are healthier to eat than others.
		2.1.2.B.2	Explain how foods in the food pyramid differ in nutritional content and value.
		2.1.2.B.3	Summarize information about food found on product labels.
4	Choosing a balanced variety of nutritious foods contributes to wellness.	2.1.4.B.1	Explain how healthy eating provides energy, helps to maintain healthy weight, lowers risk of disease, and keep body systems functioning effectively.
		2.1.4.B.2	Differentiate between healthy and unhealthy eating practices.
		2.1.4.B.3	Create a healthy meal based on nutritional content, value, calories, and cost.
		2.1.4.B.4	Interpret food product labels based on nutritional content.
6	Eating patterns are influenced by a variety of factors.	2.1.6.B.1	Determine factors that influence food choices and eating patterns.
		2.1.6.B.2	Summarize the benefits and risks associated with nutritional choices, based on eating patterns.
		2.1.6.B.3	Create a daily balanced nutritional meal plan based on nutritional content, value, calories, and cost.
		2.1.6.B.4	Compare and contrast nutritional information on similar food products in order to make informed choices.
8	Eating patterns are influenced by a variety of factors.	2.1.8.B.1	Analyze how culture, health status, age, and eating environment influence personal eating patterns and recommend ways to provide nutritional balance.
		2.1.8.B.2	Identify and defend healthy ways for adolescents to lose, gain, or maintain weight.
		2.1.8.B.3	Design a weekly nutritional plan for families with different lifestyles, resources, special needs, and cultural backgrounds.
		2.1.8.B.4	Analyze the nutritional values of new products and supplements.

By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
12	Applying basic nutritional and fitness concepts to lifestyle behaviors impacts wellness.	2.1.12.B.1	Determine the relationship of nutrition and physical activity to weight loss, weight gain, and weight maintenance.
2.1.12.B.2		Compare and contrast the dietary trends and eating habits of adolescents and young adults in the United States and other countries.	
2.1.12.B.3		Analyze the unique contributions of each nutrient class (fats, carbohydrates, protein, water, vitamins, and minerals) to one's health.	

Content Area		Comprehensive Health and Physical Education	
Standard		2.1 Wellness: All students will acquire health promotion concepts and skills to support a healthy, active lifestyle.	
Strand		C. Diseases and Health Conditions	
By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
P	Developing self-help skills and personal hygiene skills promotes healthy habits.	2.1.P.C.1	Develop an awareness of healthy habits (e.g., use clean tissues, wash hands, handle food hygienically, brush teeth, and dress appropriately for the weather).
2	Knowledge about diseases and disease prevention promotes health-enhancing behaviors.	2.1.2.C.1	Summarize symptoms of common diseases and health conditions.
		2.1.2.C.2	Summarize strategies to prevent the spread of common diseases and health conditions.
		2.1.2.C.3	Determine how personal feelings can affect one's wellness.
4	The use of disease prevention strategies in home, school, and community promotes personal health.	2.1.4.C.1	Explain how most diseases and health conditions are preventable.
		2.1.4.C.2	Justify how the use of universal precautions, sanitation and waste disposal, proper food handling and storage, and environmental controls prevent diseases and health conditions.
		2.1.4.C.3	Explain how mental health impacts one's wellness.
6	The early detection and treatment of diseases and health conditions impact one's health.	2.1.6.C.1	Summarize means of detecting and treating diseases and health conditions that are prevalent in adolescents.
		2.1.6.C.2	Determine the impact of public health strategies in preventing diseases and health conditions.
		2.1.6.C.3	Compare and contrast common mental illnesses (such as depression, anxiety and panic disorders, and phobias) and ways to detect and treat them.
8	The prevention and control of diseases and health conditions are affected by many factors.	2.1.8.C.1	Evaluate emerging methods to diagnose and treat diseases and health conditions that are common in young adults in the United States and other countries, including hepatitis, sexually transmitted infections, HIV/AIDS, breast cancer, HPV, and testicular cancer.
		2.1.8.C.2	Analyze local, state, national, and international public health efforts to prevent and control diseases and health conditions.
		2.1.8.C.3	Analyze the impact of mental illness (e.g., depression, impulse disorders such as gambling or shopping, eating disorders, and bipolar disorders) on physical, social, and emotional well-being.
12	Personal health is impacted by family, community, national, and international efforts to prevent and control diseases and health conditions.	2.1.12.C.1	Predict diseases and health conditions that may occur during one's lifespan and speculate on potential prevention and treatment strategies.
		2.1.12.C.2	Develop strategies that will impact local, state, national, and international public health efforts to prevent and control diseases and health conditions.
		2.1.12.C.3	Determine the emotional, social, and financial impact of mental illness on the family, community, and state.
		2.1.12.C.4	Relate advances in medicine and technology to the diagnosis and treatment of mental illness.

Content Area		Comprehensive Health and Physical Education	
Standard		2.1 Wellness: ALL STUDENTS WILL ACQUIRE HEALTH PROMOTION CONCEPTS AND SKILLS TO SUPPORT A HEALTHY, ACTIVE LIFESTYLE.	
Strand		D. Safety	
By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
P	Developing an awareness of potential hazards in the environment impacts personal health and safety.	2.1.P.D.1	Use safe practices indoors and out (e.g., wear bike helmets, walk in the classroom, understand how to participate in emergency drills, and understand why car seats and seat belts are used).
		2.1.P.D.2	Develop an awareness of warning symbols and their meaning (e.g., red light, stop sign, poison symbol, etc.).
		2.1.P.D.3	Identify community helpers who assist in maintaining a safe environment.
		2.1.P.D.4	Know how to dial 911 for help.
2	Using personal safety strategies reduces the number of injuries to self and others.	2.1.2.D.1	Identify ways to prevent injuries at home, school, and in the community (e.g., fire safety, poison safety, accident prevention).
		2.1.2.D.2	Differentiate among the characteristics of strangers, acquaintances, and trusted adults and describe safe and appropriate behaviors/touches.
		2.1.2.D.3	Identify procedures associated with pedestrian, bicycle, and traffic safety.
4	Identifying unsafe situations and choosing appropriate ways to reduce or eliminate risks contributes to the safety of self and others.	2.1.4.D.1	Determine the characteristics of safe and unsafe situations and develop strategies to reduce the risk of injuries at home, school, and in the community (e.g., fire safety, poison safety, accident prevention).
		2.1.4.D.2	Summarize the various forms of abuse and ways to get help.
		2.1.4.D.3	Examine the impact of unsafe behaviors when traveling in vehicles, as a pedestrian, and when using other modes of transportation.
	Applying first-aid procedures can minimize injury and save lives.	2.1.4.D.4	Demonstrate simple first-aid procedures for choking, bleeding, burns, and poisoning.
6	Identifying unsafe situations and choosing appropriate ways to reduce or eliminate risks contributes to the safety of self and others.	2.1.6.D.1	Summarize the common causes of intentional and unintentional injuries in adolescents and related prevention strategies.
		2.1.6.D.2	Explain what to do if abuse is suspected or occurs.
		2.1.6.D.3	Summarize the components of the traffic safety system and explain how people contribute to making the system effective.
	Applying first-aid procedures can minimize injury and save lives.	2.1.6.D.4	Assess when to use basic first-aid procedures.

By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
8	Evaluating the potential for injury prior to engaging in unhealthy/risky behaviors impacts choices.	2.1.8.D.1	Assess the degree of risk in a variety of situations and identify strategies to reduce intentional and unintentional injuries to self and others.
		2.1.8.D.2	Describe effective personal protection strategies used in public places and what to do when one's safety is compromised.
		2.1.8.D.3	Analyze the causes and the consequences of noncompliance with the traffic safety system .
	Applying first-aid procedures can minimize injury and save lives.	2.1.8.D.4	Demonstrate first-aid procedures, including victim and situation assessment, Basic Life Support, and the care of head trauma, bleeding and wounds, burns, fractures, shock, and poisoning.
12	Evaluating the potential for injury prior to engaging in unhealthy/risky behaviors impacts choices.	2.1.12.D.1	Determine the causes and outcomes of intentional and unintentional injuries in adolescents and young adults and propose prevention strategies.
		2.1.12.D.2	Explain ways to protect against abuse and all forms of assault and what to do if assaulted.
		2.1.12.D.3	Analyze the relationship between alcohol and drug use and the incidence of motor vehicle crashes.
		2.1.12.D.4	Develop a rationale to persuade peers to comply with traffic safety laws and avoid driving distracters.
		2.1.12.D.5	Summarize New Jersey motor vehicle laws and regulations and determine their impact on health and safety (e.g., organ/tissue donation, seatbelt use, and the use of hand-held devices).
	Applying first-aid procedures can minimize injury and save lives.	2.1.12.D.6	Demonstrate first-aid procedures, including Basic Life Support and automatic external defibrillation, caring for head trauma, bone and joint emergencies, caring for cold and heat injuries, and responding to medical emergencies.

Content Area		Comprehensive Health and Physical Education	
Standard		2.1 Wellness: All students will acquire health promotion concepts and skills to support a healthy, active lifestyle.	
Strand		E. Social and Emotional Health	
By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
2	Many factors at home, school, and in the community impact social and emotional health.	2.1.2.E.1	Identify basic social and emotional needs of all people.
		2.1.2.E.2	Determine possible causes of conflict between people and appropriate ways to prevent and resolve them.
		2.1.2.E.3	Explain healthy ways of coping with common stressful situations experienced by children.
4	Many factors at home, school, and in the community impact social and emotional health.	2.1.4.E.1	Compare and contrast how individuals and families attempt to address basic human needs.
		2.1.4.E.2	Distinguish among violence, harassment, gang violence, discrimination, and bullying and demonstrate strategies to prevent and resolve these types of conflicts.
	Stress management skills impact an individual's ability to cope with different types of emotional situations.	2.1.4.E.3	Determine ways to cope with rejection, loss, and separation.
		2.1.4.E.4	Summarize the causes of stress and explain ways to deal with stressful situations.
6	Social and emotional development impacts all components of wellness.	2.1.6.E.1	Examine how personal assets and protective factors support healthy social and emotional development.
	Respect and acceptance for individuals regardless of gender, sexual orientation, disability, ethnicity, socioeconomic background, religion, and/or culture provide a foundation for the prevention and resolution of conflict.	2.1.6.E.2	Make recommendations to resolve incidences of school and community conflict, violence, harassment, gang violence, discrimination, and bullying.
	Stress management skills impact an individual's ability to cope with different types of emotional situations.	2.1.6.E.3	Compare and contrast ways that individuals, families, and communities cope with change, crisis, rejection, loss, and separation.
8	Social and emotional development impacts all components of wellness.	2.1.8.E.1	Analyze how personal assets , resiliency , and protective factors support healthy social and emotional health.
	Respect and acceptance for individuals regardless of gender, sexual orientation, disability, ethnicity, socioeconomic background, religion, and/or culture provide a foundation for the prevention and resolution of conflict.	2.1.8.E.2	Determine the effectiveness of existing home, school, and community efforts to address social and emotional health and prevent conflict.
	Stress management skills impact an individual's ability to cope with different types of emotional situations.	2.1.8.E.3	Explain how culture influences the ways families and groups cope with crisis and change.
		2.1.8.E.4	Compare and contrast stress management strategies that are used to address various types of stress-induced situations.

By the end of grade	Content Statement	CPI #	Cumulative Progress Indicator (CPI)
12	Respect and acceptance for individuals regardless of gender, sexual orientation, disability, ethnicity, socioeconomic background, religion, and/or culture provide a foundation for the prevention and resolution of conflict.	2.1.12.E.1	Predict the short- and long-term consequences of unresolved conflicts.
		2.1.12.E.2	Analyze how new technologies may positively or negatively impact the incidence of conflict or crisis.
	Stress management skills impact an individual's ability to cope with different types of emotional situations.	2.1.12.E.3	Examine how a family might cope with crisis or change and suggest ways to restore family balance and function.
		2.1.12.E.4	Develop a personal stress management plan to improve/maintain wellness.
